

War between capitalism and communism is something inevitable. Of course, today, we are not strong enough to attack. Our opportunity will be in around 20 or 30 years, and for winning, we shall need the surprise element. The burgecy will have to be put to sleep. Then we shall start the most spectacular peace offensive ever dreamed or known. There shall be close and electrical relationship and a lot of concessions will be granted, the capitalist countries, stupid and falling, will be very helpful in their own destruction. They will go looking for the opportunities to be friends. As soon as they low their guards, we shall turn them to dust with our own fists. (These words were pronounced by Dimitri Mannulsky in M o s c o w , year, 1930, while been Secretary General of the International Communism).

“AFTER READING THIS PARAGRAPH, IT IS VERY HARD TO THINK HOW IT IS POSSIBLE THAT THERE ARE PEOPLE WHO ARE WILLING TO MAKE CLASSIFICATIONS OF GOOD COMMUNISTS OR BAD COMMUNISTS. BAD ARE ALL THOSE WHO STILL ARE ALIVE, MAYBE THOSE WHO ARE ALREADY DEATH MIGHT BE GOOD”.

Fray Oscar Figueredo y del Rozal
